

Solar Cell Wafer Transfer System

Step to the next generation of solar cell wafer handling with GLA's Solar Cell Wafer Transfer System. Innovative design concepts coupled with reduced footprint and high throughput provide the highest performance and reliability.

Highlights:

- Fully automatic and user friendly
- Throughput: 5000 WPH
- Wafer breakage: < 0.01%
- Wafer thickness: as low as 100 μ
- Compact designs, either table-top or standalone models available
- Wafer handling safe guards and interlocks prevent wafer breakage
- ESD safe
- Low cost of ownership
